LABA Series

Linear Acoustic Baffle Angled LED

The LABA Series offers a twist on the standard Linear Acoustic Baffle to create a gradual transition between walls and ceilings. This new pivoted design is hung at an angle either at the corners where the walls and ceiling meet or throughout an exposed ceiling plan to produce a larger surface area of direct sound absorbing material. The LABA Series includes an optional LED lighting package that produces indirect accent lighting on a ceiling or opposing wall, and is easily installed to most ceiling types with aircraft cables. Experience the evolution of acoustic lighting by ordering your LABA Series fixture today!

CONSTRUCTION

Acoustic material is 100% PET containing at least 55% recycled content. Class B fire rating and moisture resistant. Noise Reduction Coefficient (NRC) average around 0.75.
